

REMARKS

Formal Matters

The instant application is allowed. Applicants have amended the specification to correct an inadvertent typographical error in the ATCC deposit number. Support for the amendment is found in the enclosed letters of October 6, 1997 and October 13, 1997, to and from the ATCC, indicating that plasmid pBSSK+.hu.CT1.h5 deposited July 26, 1994 is designated ATTC No. 75,841 (emphasis added). The amendment does not affect the merits of the application and entry of the amendment is respectfully requested.

If in the opinion of the Examiner, a **telephone conference** would expedite processing of this amendment, the Examiner is **strongly encouraged** to call the undersigned at the number indicated below.

This amendment is timely submitted with the issue fees and other documentation for issuance of the instant application. Applicants believe that no additional fees are due with respect to this amendment. In the unlikely event that fees are due with this amendment, Applicants hereby authorize the Commissioner to charge or credit our Deposit Account No. 07-0630 for any fees necessary or credits due for the filing of this amendment.

Respectfully submitted,
GENENTECH, INC.

VERSION WITH MARKINGS TO SHOW CHANGES MADE

In the Specification:

The paragraph beginning on page 60, line 16 is amended as follows, wherein strikeout in brackets [00] indicates deleted terminology, and underlined bold text, **00**, indicates added terminology.

The following material, a plasmid encoding CT-1 (disclosed in U.S. Serial No. 08,286,304 filed August 5, 1994, now U.S. Patent No. 5,571,893, issued November 5, 1996), has been deposited with the American Type Culture Culture Collection, 10801 University Blvd., Manassas, VA 20110-2209, USA (ATCC):

<u>Material</u>	<u>ATCC Dep. No.</u>	<u>Deposit Date</u>
pBSSK+.huCT1.h5	7[4] 5 ,841	July 26, 1994
